Attachments: 05.04.2015 IIT Consent to EPA Access.docx

Justin and Ray,

I am attaching an updated Consent to Access form, which has been revised to refer only to Lot 2.01 since the other two lots do not appear to be affected by EPA's request for access. We also updated the form to reflect Givaudan's correct corporate name is Givaudan Fragrances Corporation.

We are close to completing discussions with our contractor, as well as Givaudan, and we hope to schedule the sampling for June or July. We would like to provide Givaudan with IIT's executed consent to access form. Could you let me know if there is anything else you need, and if not, please provide the signed consent to access form?

Thank you.

Sarah

Justin and Ray,

With apologies for the long delay, I am back in touch with you as EPA is close to finalizing our sampling plan for the Givaudan containment cell adjacent to IIT's property.

Attached is the revised certificate of insurance provided by Lockheed, showing their umbrella policy, as well as an email from Chris Gussman, Lockheed Martin Task Leader for this work, explaining the coverage for "sudden and limited pollution" under Lockheed's insurance. Please let me know if you have any questions.

Sarah,

The additional insured name should be:

IIT Clifton DC LLC
c/o Industrial Income Trust Inc.
518 17th Street, Suite 1700
Attn: Real Estate Counsel
Denver, CO 80202

Upon receiving the revised certificate and written statement from Lockheed, we will review with our risk/insurance folks.

Thanks,
Justin

Ray,

The marked survey you provided will work well as Exhibit A. Thank you.

We spoke with Lockheed Martin this morning about its insurance coverage. Lockheed will revise its Certificate of Insurance to show \$8 million in excess coverage which sits above the Commercial General Liability. With respect to Contractor's Pollution Liability, Lockheed Martin explained that their CGL coverage has an extension for "sudden and accidental" releases, but they do not carry Contractor's Pollution Liability because they do not contract to perform remedial or cleanup work. We asked Lockheed to provide a written statement to this effect. I modified the consent to access form to reflect that Lockheed is not carrying Contractor's Pollution Liability coverage.

When Lockheed reissues the Certificate of Insurance, what name and address should it use for IIT? Apologies if you already provided this information to EPA.

Regards,
-Sarah

Sarah – happy to work with you in place of Leena. I have attached a marked survey to show the approximate location of the gate to the Givaudan cell as well as the proposed portion of the property to which IIT would grant access. If you need to propose a different area, I also have attached the unmarked survey for you to use.

As I noted in my last e-mail to Leena, it appears as if the USEPA contractor has some gaps in its coverage. I would expect them to have Contractor's Pollution Liability coverage, otherwise there is normally no coverage in the liability policy for environmental damages. Also, the certificate did not show any excess coverage. This must also be an oversight as I am sure they have ample excess coverage that could be added to the certificate. Can you check on both of these items?

Thanks, Ray
